Regarding No entry on the area of First Warsaw Golf and Country Club, Rajszew.

Acting on behalf of First Warsaw Golf and Country Club I want to inform you, that from 1st of October 2008 you are not allowed to enter the area of the golf club in Rajszew. Due to this fact, your locker no.1 in the men's locker room has been emptied by a committee and your properties are to be collected personally at reception within a non-exceedable term terminating on 7th of October 2008. However, there will be the possibility to collect your belongings by a person you authorize with written permission. After the above mentioned terminating date, your property will be deposited in a storage room and will be charged at 50pln a day (storage costs).

The above decision has been made due to your harmful actions to the Club, disloyal behavior to the Club, misuse of privileges of the Club in an unethical way and violating the basic social norms. These have been expressed mostly in vilifying the Club and its Board, spreading misleading rumors and gossip about legal and financial conditions plus imputing the FWG&CC management. Due to these above mentioned facts I have no alternative but to forbid you to enter the area of FWG&CC in Rajszew.

Your attitude and behavior has seriously threatened the good name and image of First Warsaw Golf and Country Club; and is detrimental to the Club bringing not only damage of the club's image but also considerable financial damages, which you will be charged with after detailed estimation. Should you pay the costs voluntarily to the Club, the club may consider not to claim its rights by means of an action of civil law against your person.

In connection with above, from the 1st of October 2008, you are not allowed to enter, stay nor play golf at the area of the golf Club. This information has been passed to the club employees and Members. Your memberships has also been terminated as from 1st October 2008 and, due to the above, we will not entertain any claims for refund should any be due.
